Metromint® Announces Natural Specialty Sales, Inc. (NSSI) as National Natural Specialty Broker

SAN FRANCISCO, CA- Soma Beverage Company, LLC, creators of **Metromint**, Pure. Simple. Mintwater (www.metromint.com), is pleased to announce Natural Specialty Sales, Inc. (NSSI), as national natural specialty broker for **Metromint**.

According to Matt Collins, Soma Beverage Company's Chief Operating Officer, "Due to overwhelming consumer and retailer demand for **Metromint** in key markets like NY, SF and LA, we need the industry's foremost broker as part of our team to put **Metromint** on store shelves immediately. NSSI will represent **Metromint** nationwide to natural food retailers and facilitate that effort."

About METROMINT. Pure. Simple. Mintwater™

We start with pure, clear water. Then we filter it so absolutely nothing gets in the way of its crisp, clean taste. We add pesticide-free peppermint grown in Washington's Yakima Valley. That's it. No sweeteners. No calories. Nothing but all-natural ingredients and a vibrant, crisp taste.

It calms the nerves, it soothes and revives the body, and aids in digestion. Exactly why style- and health-conscious consumers who expect more from their bottled water than just water are drinking **Metromint**. The original Mintwater™.

Metromint is available in these fine stores: Whole Foods Market nationwide, Safeway Natural Markets nationwide, in addition to regional chains including Mollie Stone's, Mother's Market, Zupan's, Larry's, Kowalski's, Beverages & More and Gourmet Garage-NYC.

Metromint is the first product from Soma Beverage Company, LLC. The company was founded by Scott Lowe and Rio Miura and is the couple's second company together.
